

## WSB Checklist Scoring System

### Hardware Check

- .. Scoring System connected to Notebook
- .. Timing Keypad connected to Notebook
- .. Hardware dongle connected to Notebook (OS newer than Win7 needs black dongle)
- .. Internet (cabled) connected

### Preperation for Competition

- .. Check <http://www.swisstiming.com/download/software-updates/> for updates
- .. download and install new updates
- .. Delete all XML-files in folder "download" (C:\SWISS TIMING\WinBPM 3.0\projects)
- .. Delete all files in folder "upload" (C:\SWISS TIMING\WinBPM 3.0\projects)
- .. Start "WinSCP Download"
- .. Check that the path on the left site of "WinSCP Download" ("C:\SWISS TIMING\WINBPM 3.0\projects\download") and on the right site ("/var/www/aiba-database/current/admin/wsb/files/xml/download") are correct
- .. download new import files (event file and WSB\_standings.xml) and close WinSCP after download was successful
- .. Start WinBPM 3.0
- .. Click on Event/New Event to start Import
- .. Click on Button Import in the dialog and choose current event for import
- .. Go to Combox/Setup to check all Interfaces configured correctly and are active (port for scoring system, port for timing keypad)
- .. The port numbers for timing keypad and scoring system can be checked in the device manager (Start/Control Panel/Device Manger section "Ports")
- .. Go to Combox/BPM Check and choose option "Assign" to assign the keypads for the judges
- .. Use option "Check" to check the assignment is correct
- .. Check all database entries imported correctly (athletes, officials, bouts)
- .. Enter Referee and Judges for all bouts
- .. Create Daily Schedule (C58) as printout

### Competition

- .. Start "WinSCP Upload"
- .. Check that the path on the left site of "WinSCP Upload" ("C:\SWISS TIMING\WINBPM 3.0\projects\upload") and on the right site ("/var/www/aiba-database/current/admin/wsb/files/xml/upload") are correct
- .. Shortly before first bout go to menu "Commands/Keep Remote Directory up to Date" in "WinSCP Upload", check the paths again and press "Start" then
- .. Click on "Next Bout" in WinBPM to enter the Bout Screen
- .. Run the bout
- .. Press "Set Official" when referee raises the winner's arm
- .. Use "Bout Result" to print the Bout Result
- .. Run all bouts
- .. After last bout export the Session Results list (List/Session/Session Results) by using the right printer button (printer group)
- .. Check that pdf file was uploaded (WinSCP, pdf file in C:\SWISS TIMING\WinBPM 3.0\projects\upload)
- .. If pdf upload was not successful use List\Export\Results PDF
