You will take part in the design and the realization of TV graphics, public scoreboards displays and web pages addressed to general audience and sports professionals. As part of a young and dynamic team, you will report to your team leader, yet be able to work independently in an Agile environment using the SCRUM methodology. Your artistic taste and your knowledge of new technologies will bring real time sport results display to a new level at major events such as various World Cup and Olympic Games.

Your profile:

- Ability to work as an effective team member yet able to be autonomous
- Capacity to respect the deadlines and to deal with stressful situations
- Strong artistic and creative taste
- Travel availability (approximately 20%) in Switzerland and abroad
- Interest in sport

Professional requirements:

- Professional experience and excellent knowledge of Adobe Photoshop and Illustrator
- Professional experience and knowledge of front end web technologies (e. g. JQuery, CSS, HTML5)
- Knowledge in other web-related technologies such as PHP, ASP.NET, MySQL, etc.
- Professional experience and knowledge of Viz Artist, or alternatively other animations software such as Adobe Flash, Première or After Effects
- Professional experience in software development and/or scripting
- Professional experience and hardware, systems and networking
- Professional experience and knowledge TV and broadcast technologies and standards
- Professional experience with TFS
- Understanding of agile / scrum methodology
- Previous experience in sport technologies service provision
